Kingman, Ariz., Aug. 17.—The big silver-lead camp of Chloride is all excitement and enthusiasm today over the completion of the Arizona & Utah railroad. Visitors were welcomed by Judge Wilbur Brakeman, after which Vice-President McCaig spoke of the great advantage the railroad would be to the camp in marketing of ores. Miss May Krider drove the silver spike in.

Bismarck, Aug. 16.—The court martial of Dreyfus was continued this morning. Major Carrere, the representative of the government, having refused to agree to an adjournment of the case until Monday which was applied for by M. DeMange, counsel for the prisoner, owing to the murderous attack upon M. Labori. A feature of today's proceedings was the story of the sufferings of Captain Dreyfus on Devil's island, the prison off the coast of French Guiana. Dreyfus wept in court when the clerk read the details of his incarceration. M. Labori has passed a better night. He had some sleep and his condition is more reassuring. The assailant of the lawyer has not yet been captured.

Washington, August 17.—Secretary Root has been in consultation with the officers of the quartermaster department with a view to inspecting the movement of the Philippine reinforcements, and he has directed that four transports be chartered. They are the Pueblo, Belgian King, Columbia and Charles F. Nelson. It is expected these vessels will be ready to sail for Manila by September 10. It is the secretary's desire that the entire body of reinforcements may reach the Philippines during the month of October. It is now believed that 11 of the 12th regiment will have landed at Manila by the time the 3rd season opens. A short and successful campaign of this new army would of course obviate the necessity of sending any additional volunteers to the Philippines, and the plans under consideration at the war department are said to be predicated on that idea.

London, Aug. 17.—The Phoenix, an afternoon paper, states that Mrs. Langtry was married secretly in Jersey, July 29, to Sir Hugo B. Gerald de Bathe, son of Sir Henry Percival de Bathe, an other brother of Lady Crossly. According to the paper the newly married couple are now in London enjoying their honeymoon.

Leghorn, Aug. 17.—Admiral Dewey's departure for Florence has been indefinitely postponed, as the admiral is still disposed. Many officials have visited the Olympia since she has been in port.

A Night Of Terror.

"Awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctors said she could not live till morning" writes Mrs. S. H. Lincoln, who attended her that fearful night. "At that time we must soon die from Pneumonia, but she begged for Dr. King's New Discovery, saying it had more than once saved her life, and had cured her of Consumption. After three small doses she slept easily all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all Throat, Chest and Lung Diseases. Only 50c and \$1.00. Trial bottles free at the Bisbee Drug Store and Copper Queen Co.

An exchange says: "Your mouth is the front door to your face; it is the aperture to the cold storage of your anatomy. Some mouths look like peaches and cream and some like a hole in a brick wall to admit a door or a window. The mouth is a hot-bed of toothaches and the bung hole of oratory. It is the crimson isle to your liver. It is patriotism's fountain and tool chest for pie. Without a mouth a politician would be a mauler upon the face of the earth and go down to an unhonored grave. It is the grocer's friend, the orators pride and the dentist's hope. It puts some men on the rostrum and some in jail. It is temptation's lunch counter when attached to a maiden, and tobacco's friend when attached to a man; without it married life would be a summer dream and a dude would lose half of his attraction.

The Thirty-Fourth Full.

Lieutenant Luna has received word that the Thirty-fourth Regiment has been recruited to its full strength. He will continue enlisting men here and elsewhere, but all men hereafter will be sent to Fort Sam Houston in Texas instead of Fort Logan, and they will be assigned to the Thirty-third volunteer infantry. Lieutenant Luna will go to Prescott in a few days, where a recruiting office will be opened. He is highly pleased with his work in this territory and says recruiting in Arizona has been easier than in any other section. He thinks the best for its valuable assistance to him in his work. Lieutenant Luna says the Thirty-fourth will sail for Manila about September 20.—Phoenix Gazette.

A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended, and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. I will know it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours truly, Mrs. Geo. F. Bunkick, Liberty, R. I. For sale at Bisbee Drug store.

There was to have been a wedding in this city Sunday night, but the event was not "pulled off." The bride elect (but later on the bride defeated) came all the way from Michigan, to find a husband. Her ideas, however, were entirely too exalted for the pocket book of her intended, and after discussing the matter three days and failing to secure the concession demanded, she boarded a train and returned to her home. A seven room house handsomely furnished, an art gallery for the dining room and two bottles of beer daily were among the demands made, and the groom-to-be, who realized that he had "bitten off more than he could chew," concluded to remain single a while longer, got out of the matter as graceful as possible and has not resumed his usual labors under ground.

Kodol Dyspepsia Cure cures dyspepsia because its ingredients are such that it can't help doing so. "The public can rely upon it as a master remedy for all disorders arising from imperfect digestion."—James M. Thomas, M. D., in American Journal of Health, N. Y. Copper Queen store.

SOAP

...Of the making of soap there is no end, but this has to do with a new soap that is as different as can be from soap made for use anywhere and everywhere. This is an exclusive soap, made for this particular place and for the hard water peculiar to this region. It lathers freely and luxuriously and is harmless because it is pure. It's so good we call it—
